

Consultation regarding new coronavirus infections and their countermeasures

New Corona Consultation Counters (Centers for Japanese Returnees and Potential Contacts)

If you fall under any of the following, please consult your family doctor or a "Center for Japanese Returnees and Potential Contacts)" immediately.

If you have any of strong symptoms such as dyspnea, strong fatigue (malaise), or high fever:

If elderly people, people with underlying illness, or pregnant women have mild cold symptoms such as fever and cough:

If you continue to have relatively mild cold symptoms such as fever or cough

If the symptom persists for 4 days or more, please be sure to consult us. There are individual differences in the symptom, so if you think that you have a strong symptom, please consult us immediately. The same applies to those who have to continue taking antipyretics.

If you suspect that you are infected with the new coronavirus as a result of consultation at the new corona consultation desk, we will introduce you to a specialized "new corona outpatient clinic (Clinic for Japanese Returnees and Potential Contacts)". Please wear a mask and avoid using public transportation.
